Pistachio Dessert

TIP OF THE WEEK:

Pistachio Dessert is a must try! If you are struggling with making nice layers, here's some tips for those 4 beautiful layers! Refrigerate the dessert as you are making the next layer. It helps each layer set before adding on the next. Be sure to use INSTANT pistachio pudding mix. Do not make it into a pudding, you will just use the powder in this recipe. I used Keebler Sandies, but any shortbread cookie should work. Golden Oreos, pistachio cookies, or any other cookie would also work. If you feel like your crust will be too dry and crumbly, add 1-2 more tablespoons of butter.
