American Flag Cake

TIP OF THE WEEK:

Happy 4th of July! Our American Flag Cake is festive and delicious. You can customize it even more with these decorating tips:

Different fruit designs - This idea can be adjusted to create different designs. Find different colored fruits and arrange them to resemble your country's flag. Piping on frosting stripes - The layer of white frosting acts as the white stripes between the red strawberry stripes.

Double-layer cake - Once the sheet cake cools, cut it in half widthwise. Add a layer of frosting on top of one side of the cake. Place the other half of the cake on the frosting. Frost the top of the cake and decorate it to look like a flag.
