TIP OF THE WEEK:

Cinnamon Buttermilk Syrup is on the menu this week and it is SO good! I could practically drink the stuff.

A few tips:

- Use a larger saucepan than you think you'll need. The syrup will foam up quite a bit.
- For a thicker syrup simply let it simmer longer. You will also be able to taste a hint of caramel flavor due to the extra cook time. YUM!
- Remember to stir! You don't want the mixture to scorch on the bottom and affect the taste of the entire dish.
